604 .

```

```

605 . //Muñoz et al recommend a placebo test with a fictional 'treatment'
606 . //First, we find the median date the control subjects were interviewed and
    > then designate
607 . //that date as the "treatment." Then, using only control subjects,
608 . //we provide a placebo test for pre/post treatment differences
609 .
610 . //Because fieldwork began on slightly different dates in each of our 4 coun
    > tries, the
611 . //median date is different across countries.
612 .
613 . //These models use covariates, 7-day bandwidth, and country and size of loc
    > ation fixed effects.//
614 . //As such, they are comparable to models reported in Panel C of Figure 2.//
615 .
616 .
617 . //Create placebo variable by country
618 . sum fecha if posttrump==0 & country==3, detail
